## IMPRI Impact and Policy Research Institute

An **independent, ethical and non-partisan** research think tank.

### Aims:

- **To ideate & inform** policy through focused evidence-based & action-based policy research.
- **To contribute** to the creation of an equitable, just, peaceful & prosperous society, nation & world.

## Gender Impact Studies Center (GISC)

### Seeks to:

- **Demonstrate** the impact of research based on gender equity & equality
- **Provide** gender-agnostic evidence-based & action research
- **Distance** itself from biases of the patriarchal prism of analysis
- **Undertake** rigorous and nuanced analysis of the challenges towards gender equality in both rural & urban spaces, in the realms of violence against women, entrepreneurship and livelihood, poverty, hunger, shelter, among others
- **Offer** periodic research feedback on monitoring, evaluation, & implementation of the policies, programs and schemes

***GISC advocates that voices against gender biases must be made more vocal, which would aid in the steady elimination of exclusive masculine agencies over a period of time.***
